Kathleen C. Dillon
President

Richard Rasmussen, Ed. D.
Vice President

MCSBA statement on the proposal for mayoral control of the Rochester City School District:

"The Monroe County School Boards Association believes that a decision of the magnitude of determining the governance of the Rochester City School District should not be made without a thorough and public study. Only after a community goes through a process of self-determination and chooses to change the organization of their local government and school district should Albany respond with appropriate legislation to make such change possible."

"...governments are instituted among men, deriving their just powers from the consent of the governed." The United States Declaration of Independence

Approved January 27, 2010
